What's New LogTag Online v1.7.0

1. View single-use loggers without LogTag Online account creation.

Data for single-use loggers uploaded via LogTag Xpress can be viewed on LogTag Online without creating an account. If LogTag is registered with an LTO team, data is available only for team members, not for the public. Only data from non-registered devices are available to the public.

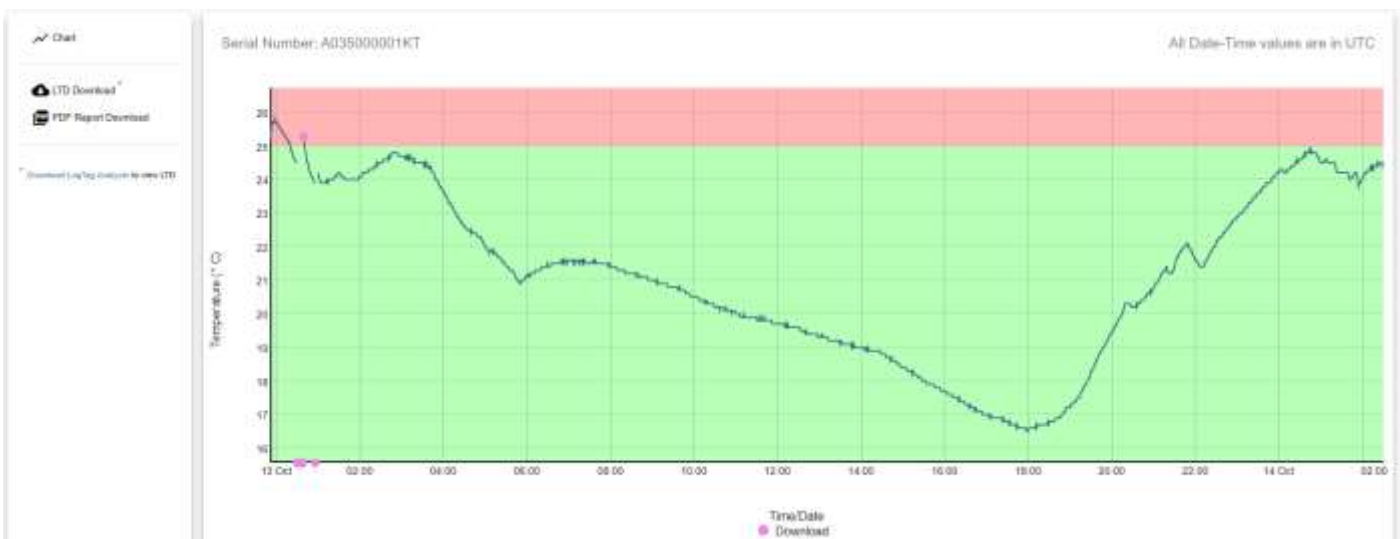

Chart, Pdf report and LTD file(s) are available for uploaded data. All data are in UTC time zone.

Download LTD file and open it in LogTag Analyzer to view/export data in another format.
